Swapnil Daxini(V00861672) Assignment 4 Question 3b)

Contents

- Find condition number of A

Find condition number of A

Define A

```
A = [-0.2345, 2.107; 0.1234, -1.115]

% Use cond function
condition_number = cond(A)
```

```
A =

   -0.2345    2.1070
    0.1234   -1.1150

condition_number =

   3.9304e+03
```
